Summary

Currently at TELECOM SOFT, our team leverages skills in Figma
and Entity Framework Core to create robust software solutions.
With a BASc in Applied Mathematics and Informatics from Fergana
State University, my foundation in analytical thinking enhances our
development projects.

As a freelancer, I've synthesized my .NET knowledge to deliver
diverse web applications, from e-commerce to analytics dashboards,
consistently garnering client praise. Teaching .NET at Najot Ta'lim,
we empowered students with solid programming fundamentals,
underscoring my commitment to knowledge sharing and practical
application of software development.
